

Product Technical Data Sheet

C770 – Calcium Removal Jelly

Summary

A particularly effective Gel Cleaner with acidic components designed for use where scale or deposits build up on rollers and blankets. Designed to help fight the development of calcium carbonate into the printing system.

Properties

Flashpoint (°C)	N/A
Colour	Red
Water Miscible	Yes – Soluble
Density / Specific Gravity	1.020 +/- 0.010
Voc Content / % Volume	<5%
Odour	Low
UN Number	N/A

Description of use

Firstly ensure all ink is removed with a suitable blanket and roller wash. Then apply a layer of C770 to the roller train and leave for 3- 5 mins to penetrate and run-in during idle speed (do not allow roller to run dry) and wash off with plentiful water. Finally clean with blanket and roller wash as required.

Storage, Shelf Life and Health and Safety

- Store in temperatures not exceeding 30°C and not falling below 5°C!
- Store on either pallets or racking in order to protect from cold floors.
- If left unopened and kept in the correct conditions this product has a recommended shelf life of 12 months.

Labeling: GHS07: Exclamation mark

Usage: Will not give rise to any significant hazard provided reasonable standards of industrial practice are maintained.
Consult MSDS for further guidance.
