

# Product Technical Data Sheet

## C854 – M.E.K Substitute

- Alternative solution to MEK with high ink solvency
- Most commonly used as a manual cleaning solution
- Quick evaporating solvent

### Applications

Most commonly applied manually using a lint free rag to clean even hardened ink deposits.

### Properties

Flashpoint (°C)	-18C
Colour	Colourless
Water Miscible	Yes
Density / Specific Gravity	0.795 +/- 0.010
Voc Content / % Volume	100%
Odour	Ketone
UN Number	1993

### Machine / Systems

C854 has been formulated for use on the majority of manual cleaning systems. These include Man Roland, Heidelberg, KBA, Komori and Mitsubishi presses.

Testing is always recommended to ensure suitability.

### Storage, Shelf Life and Health and Safety

- Store in temperatures not exceeding 30°C and not falling below 5°C!
- Store on either pallets or racking in order to protect from cold floors.
- If left unopened and kept in the correct conditions this product has a shelf life of 12 months.

Labeling: GHS02: Flame  
GHS07: Exclamation Mark

Usage: Will not give rise to any significant hazard provided reasonable standards of industrial practice are maintained.

### Note

The information contained in this data sheet corresponds with our current knowledge and experience. The liability for the application and processing of our products lies with the buyer, who is also responsible for observing the third party rights.

We reserve the right to alter any of these details as a result of technical or manufacturing developments.
