

Product Technical Data Sheet

SND104 – Idle Unit Lubrication paste

- Lubricates idle rollers
- Slows down premature aging of rollers
- Easy and quick application

Summary

SND104 is a suitably formulated lubricant paste designed for application to the idling rollers to keep them conditioned when not in use. Helps prevent over-heating and damage due to this of dry running rollers. Prolongs roller life with regular use.

Properties

Flashpoint (°C)	>100C
Colour	Brown
State	Paste
Water miscible	No
Voc Content / % Volume	0%
Odour	Characteristic
UN Number	N/A

Description of use

Apply a thin film to idle rollers with an ink knife/spatula as you would apply an ink. Allow to run-in After use remove with any conventional wash to ensure deposits are eliminated.

Storage, Shelf Life and Health and Safety

- Store in temperatures not exceeding 30°C and not falling below 5°C!
- Store on either pallets or racking in order to protect from cold floors.
- If left unopened and kept in the correct conditions this product has a recommended shelf life of 12 months.

Labeling: Non hazardous product

Usage: Will not give rise to any significant hazard provided reasonable standards of industrial practice are maintained.
Consult MSDS for further guidance.
