

Who has access to a complete range of quality inks for all wide format applications?

You do.

working for you.

Who can benefit from affordable, European quality products, all within one range?

You can. Streamline® range of aftermarket inkjet inks.

Sun Chemical's experience in working with the world's leading inkjet printing machinery manufacturers makes it one of the foremost experts in inkjet technology. Leading inkjet innovations, product development, global R&D and technical expertise all make Sun Chemical the ideal long term partner that offers a complete package.

As a global supplier to the inkjet market, Sun Chemical's focus on quality products, dedicated service and leading innovation, is integrated worldwide to allow customers to benefit from reliable, quick and secure ink conversions.

Sun Chemical's insight and understanding of the inkjet market, combined with its extensive technical capabilities allows the production of robust aftermarket products with physical and colour properties equivalent to the original products. A complete range of solvent, oil and waterbased products for a variety of wide and superwide format printers are available.

We offer dedicated engineering support in the form of regular maintenance visits, offsite phone support and technical know-how, to ensure customers have all the technical support they require to drive their own efficiency.

Sun Chemical customers have access to a complete library of profiles for a wide variety of RIP and media combinations.

To complement the Streamline® range of inks, Sun Chemical supplies a range of spare parts to support most applications.

A partner who transforms with you.

Today's environment requires more than change. It demands transformation – and a partner who's willing to transform with you. As the world's leading producer of inks and pigments, Sun Chemical gives you over 8,000 people working in 250 locations in 56 countries. And every one of those people is working every day to create new solutions for the increasing challenges in packaging, publication, coatings, plastics, electronics, brand protection, and product authentication. We are committed to meeting your needs, while never losing sight of the business essentials: reliable, on-time delivery, consistent product quality, dependable service, and ground-breaking innovation. As you move forward into a world of stiffer competition, faster turnarounds, more complex printing demands, and sustainable products, count on Sun Chemical to be your partner.

working for you.
