

# Varn Multiwash

## Water miscible UV blanket & roller wash

Varn Multiwash is based on highly refined chemical solvents and vegetable based cleaners.

Varn Multiwash is compatible with a wide range of UV ink formulations and with most rubber compounds used in UV printing.

Varn Multiwash is designed to effectively clean both UV and conventional inks and is suitable for washing blankets and rollers in conjunction with automatic systems. Not suitable for EPDM rollers.

Varn Multiwash is water miscible and can be used with up to 10% water to remove water soluble and solvent soluble glaze, blanket piling and lint.

Features	Advantages	Benefits	Product Benefits
Water miscible.	Easily removes both water soluble and solvent soluble glaze, blanket piling and lint.	One application removes all debris.	<ul style="list-style-type: none"> <li>• Water miscible.</li> <li>• Low odour.</li> <li>• Specially formulated for UV/conventional inks.</li> <li>• Excellent ink solvency.</li> <li>• Economical in use.</li> </ul>
Low odour.	User friendly.	Pleasant working environment.	
Suitable for UV and conventional inks.	Versatile.	One product for dual application.	

## Directions for use

Blankets:

Mix with up to 10% water or apply to a dampened wash-up cloth to remove both water soluble and solvent soluble glaze, blanket piling and lint.

Rollers:

Use neat or mix with up to 10% water to remove gum glaze, paper fibres and lint.

For automatic systems, use as instructed by installation engineer.

Do not use on unbaked positive plates, or EPDM rubber compounds.
