Varn® Penetration Plus

Advanced roller and blanket maintenance

Specialist rubber rejuvenator for all printing applications and press types

Product Features

- Varn® Penetration Plus cleans and restores rollers and blankets, and will improve print quality, and add life to blankets.
- Varn® Penetration Plus helps reduce glaze on blankets and rollers when used as a regular wash up solvent.
- Varn® Penetration Plus is water miscible, so also helps remove calcium and paper debris from both blankets and rollers.

Advantages of Varn® Penetration Plus

- Helps to extend life of blankets and rollers.
- Very quick to use.
- Improved print quality by restoring 'nap' to blankets and rollers.
- Do not use on unbaked plates.
- Not suitable for use on EPDM rubber compounds.

<ul style="list-style-type: none">• Deep cleans rollers with one application.	<ul style="list-style-type: none">• Faster colour changes.	<ul style="list-style-type: none">• Increased production.

Product code

KU40-OPPG-#### (final 4 digits relate to pack size).

Pack sizes

10 litres (O1F9), 20 litres (O1H5) and 200 litres (O1MP).

Application

Blankets: Use at the end of each shift to deep clean blankets after long runs. Varn® Penetration Plus can be used as a substitute for normal blanket washing. A final wipe with water will totally revive blanket.

Rollers: Manually use instead of your usual solvent to wash up the rollers. Allow to run in for several minutes before applying blade, then finish off with water. Varn® Penetration Plus should be used as a weekly liquid maintenance for all blankets and rollers. The improvements in print quality and ink transfer will be obvious from the first application.

More products. Streamlined access. Greater results.

Flint Group's Print Media division offers a uniquely powerful combination of products, services and expertise; giving you access to the industry's broadest range of pressroom products.

Inks and Coatings. Pressroom Chemicals. Blankets. Sleeves. Consumables.
